Why are you sending your money to the Mail Order Houses? Do you know that you are helping the Trusts to destroy your brother, whenever you patronize the Mail Order Houses. Every dollar you send to the Trust is a dollar taken out of your neighborhood, your city, and added to the millions of the Mail Order magnate with his \$10,000 automobile and bankrupt duke son-in-law. Why are you helping them? Are they helping you? You cannot honestly say that you were entirely satisfied with what was shipped you from the Mail Order Trust. Had you bought the same class of goods of your local merchant, you would have taken them back the next day to the store and asked for your money to be refunded.

You cannot get something for nothing—but you know now that you have been accepting stuff from the Mail Order firms that you would return to your local merchant immediately.

Many articles looked cheap to you when priced in a big catalogue—and they are cheap—the cheapest made stuff that could be made.

Reliable firms make reliable goods and sell to you through reliable merchants, and such firms pay living wages—but the Mail Order Trust do not handle reliable made goods.

Did the Mail Order Trust ever send you money back? You get a Due Bill and a chance to leave your money with them to use until you wanted some more of their junk. How many letters did you have to write for some article they forgot to send? Did the railroads or express companies ever pay you for the time and trouble you had in getting the stuff fixed up so you could use it? Did you ever get any damages from the railroads for what they smashed? Your claim will be attended to, some day, in the far distant future if you manage to live that long.

**IF YOU BELIEVE IN A SQUARE DEAL**  
Patronize your home stores—patronize the merchants you know. When you buy from your local merchant you are helping your City, your County, our State and Yourself.

One Dollar spent with your local merchant means eleven dollars in circulation for eight days; that dollar you paid out passed through the hands of ten more people in about a week as figured out by experts of our monetary system.

If you send that dollar to the Mail Order Trust for goods—that could have been bought at home—that dollar is gone out of circulation from your city, from your neighborhood—and no doubt sent out of the country. Every dollar spent with your local merchant means ten times more prosperity for your city or neighborhood.

If any article you buy at home is not satisfactory, you have some one to talk to, show why the article is defective, and 99 times out of 100 the local merchant will make good the defect or return the money. If you want a favor, if you want to build a church, or raise a little money, or assistance for an unfortunate brother—why don't you send to the Mail Order Trust instead of asking your local merchants and neighbors? When you want a little credit, a friend, a pal, or assistance in case of trouble or sickness, you do not ask the Mail Order Trust.

If you believe in a SQUARE DEAL remember that you are working against your friends, your neighborhood, and your brother—when you refuse to give them a chance to supply your needs.

In the days long gone by, when you were starting for yourself, who did you ask for a little credit? Is it a square deal to cut off the local merchant now, because you have prospered in the past few years? The MORNING NEWS submits a list of reliable firms who can furnish you with anything you need—Cheaper Than You Can Buy the Same Goods From Any Mail Order House. If you want something different from what they have in stock they will be pleased to get some for you, and at a cheaper price, quality considered, than the Mail Order Trust. Patronize CANTON merchants—your friends and the "SQUARE DEAL"
